**FirstNet™** **is reinventing how first responders share information, by**

making mobile data mission critical.

Created by Congress in 2012 to address several unmet recommendations of the **9/11 Commission Report** , FirstNet is the federal authority responsible for the deployment, operation, and maintenance of the **first high-speed, nationwide wireless broadband network dedicated to public safety**.

FirstNet's goals are to provide **priority** when you need it, **resiliency** in the face of disaster, and **coverage** wherever you operate.

How the **National Public Safety Broadband Network** will help you:

"Take the network along" in remote destinations

*Maintain **local control** by incident commanders in times of emergency*

*Get **data in real-time** from CJIS, CAD, RMS, RMV, and other data sources*

Continue uninterrupted operations when wireless carriers are overwhelmed
